

## **Promote your Recycling Center**

Contact: Steve Noble 517-284-6589

Agency: Environmental Quality

The Michigan Recycling Directory provides recycling services providers with an easy opportunity to get information about the recycling opportunities that you offer in communities across the state. Once you have registered and submitted your information about your recycling services, the system allows people to search for a location near them, find a location that offers recycling opportunities for a specific material or to search for any recycling opportunity in a geographic region near them.

To start the process of listing the recycling opportunities that you provide in your community or even across the state click [here](#) to register with the program and be on your way to helping Michigan recycle more materials.
